SCIENCE FICTION

THAT SWEET LITTLE OLD LADY BY MARK PHILLIPS

FOLD

Instructions:

1. Cut out the cover insert, on page 1, around the outer
   perimeter. Do not cut along the center.
2. Fold the cover insert in half, with the text on the outside.
3. Insert the cover insert in the CD case cover.

4. Cut out the tray insert, on page 2, around the outer
   perimeter.
5. The right-most long narrow title "tab", on the tray
   insert, is for CD case with a transparent tray.
   Remove this "tab" if the CD case has an opaque tray.
6. Fold the left and right long narrow title"tabs" to a 90 degree
   angle, away from the main tray cover portion. If the
   right-most "tab" is retained for a transparent tray, fold
   that "tab" 90 degrees again, away from the title
   "tab" next to it. The text should appear around the
   exterior of the folded cover, not the interior.
7. Remove the tray from the case.
8. Place the tray insert in the case.
9. Insert the tray, being careful that the title tabs are flat
   against the case.

10. Please appropriately discard this portion and the scrap bits
    of paper.

That Sweet Little Old Lady

Randall Garrett had this story first published in Astounding Science Fiction
September and October of 1959. His twisted sense of humor and gift for the
bizarre situation with believable characters shines here.

In the not too distant future, Ken Malone, young but promising FBI agent, is
given the most important and difficult assignment of his career: find a spy
who is stealing information from the Ultra Top Absolute Secret project to
develop a non–rocket space ship at Yucca Flats Labs in Nevada. But this is
not a normal spy, this spy laughs at the FBI and all attempts to find him or her
because they use an unknown new method to steal the information directly
from the minds of the scientists. And then of course, there is the Sweet Little
Old Lady who is immortal and the stunning nurse and the Las Vegas
gangsters and ... well, you had better listen to the story to find out the details.
(Summary by Phil Chenevert)
